SUPPORTERS OF
THE NEW NATIONAL POLICY.

INDIAN HEAD, SASK, November 21st, 1921.

To the Electors of Qu'Appelle Federal Constituency.

Dear Sir or Madam;-

At a convention of 359 duly accredited delegates held in Wolseley on Nov. 3rd. I received a majority of the votes and consequently have the honor of being the candidate selected to contest the election in the interest of the NATIONAL PROGRESSIVE PARTY.

While I should like to have the opportunity of personally visiting all electors and discussing with them the Public Problems, on account of the size of the constituency this is manifestly impossible. Consequently I am compelled to adopt the less satisfactory method of a personal letter.

To all residents of the constituency I would say that if I am returned as your representative my services will be at the disposal of all, irrespective of whether they accorded me their support or not. Upon those who are already supporters of the Progressive Movement I would urge the necessity of using their utmost endeavours to secure the election of their candidate, as upon their effort will the result of the election depend. And in this connection would emphasize the need of active educational work, and the necessity of making sure that every voter is on the lists which are being prepared, and when the vote is being taken on the 6th. of December to make sure that every last supporter of our movement poll their vote.

An election is never won on the day of election, but is won by hard, consistent, persistent work previous to polling day. Meetings are being arranged in all of the centres, of which due notice will be given. Watch for the bills, come yourself, and let the date and place of meeting be as widely known as possible to all, whether they are supporters or not, as I am convinced that the platform of our party is such that if it is understood, will commend itself to all those who are interested in the building up of a well rounded Dominion, it is in no sense a class platform, but is simply asking for equality of opportunity for all classes, and we believe that everyone no matter what their occupation may be should be satisfied with that. Our platform is based upon the principle of "EQUAL RIGHTS TO ALL, and SPECIAL PRIVILEGE TO NONE."
